DELTA BY-LAWS.

A BY-LAW

To provide for Draining and Dyking a part of the Municipality of Delta, and for borrowing on the credit of the Municipality the sum of \$13,900 for completing the same, provisionally adopted the 6th day of June, A.D. 1891.

Whereas a majority in number and value of the owners, as shown by the last revised Assessment Roll, of the property hereinafter set forth to be benefited by the drainage and dyking, having petitioned the Council of the said Municipality of Delta, praying that the Council would (under the provisions of the Municipalities Act) make surveys, procure plans and estimates, and pass the necessary by-laws for the construction, protection, and maintenance of a dyke of sufficient size and strength, with all the necessary dams, sluices, boxes, locks, gates, etc., commencing on the eastern boundary of the Municipality at a point above high tides; thence south to the shore line of Mud Bay; thence westerly along shore line of Mud and Boundary Bays to the west side of section 29, T. 3. A ditch of ample size from the Big Slough to the west side of section 32, T. 3. A ditch of ample size commencing at the south-east corner of section 10, T. 4; thence to an outlet in the Big Slough. That the work may be completed at the earliest possible date:

And whereas, thereupon the said Council procured an examination to be made by Hill & Kirk, C. E's., being persons competent for such purposes, of the said locality proposed to be dyked and drained, and has also procured plans and estimates of the work to be made by the said Hill & Kirk, and an assessment to be made by them of the land to be benefited by such dyking and draining, stating as nearly as they can the proportion of benefit which, in their opinion, will be derived in consequence of such dyking and draining by every road and lot, or portion of lot; the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots, and parts of lots, hereinafter in that behalf set forth and described, and the report of the said Hill & Kirk in respect thereof, and of the said dyking and draining, being as follows:—

To the Worshipful Reeve and Council of the Municipality of Delta:

GENTLEMEN: We have at your request made careful surveys, covering the proposed ditching and dyking scheme in the vicinity of the Big Slough, so called. We find no engineering difficulties to exist which could interfere with the carrying out of the enterprise. The work can be effected at a very moderate cost, and is

calculated to greatly appreciate the value and productiveness of a very large tract of prairie at present almost useless from want of drainage facilities and danger of tidal overflow. As engineers, having no ends to serve but the public benefit in this matter, we would strongly urge that all sloughs effected should be sluiced to the lowest practicable level, any advantage to be gained by admitting the tide to any of these sloughs must, in our opinion, be much more than counter balanced by the securing of efficient and permanent drainage. Should the Council, however, determine to lock the Big Slough the increase of cost and the introduction of a certain element of danger in the control of unusual tides, are the only objections that occur to us to be considered. We submit plans, in duplicate, profiles, and estimates, with a scheme for the assessment of the cost of construction upon the lands to be improved.

Your obedient servants,
HILL & KIRK,
Civil Engineers and Surveyors.

New Westminster, April 15th, 1891.

And whereas the said Council is of opinion that the dyking and draining of the locality described is desirable;

Be it therefore enacted by the said Municipal Council of the said Municipality of Delta, pursuant to the provisions of the Municipal Act—

1st. That the said report, plans, and estimates be adopted, and the said dykes and drains, and the works connected therewith, be made and constructed in accordance therewith.

2nd. That the Reeve of the said Municipality of Delta may borrow on the credit of the said Municipality the sum of \$13,900, being the funds necessary for the work, and may issue debentures of the Corporation to that amount in sums of not less than one hundred dollars each, and payable within twenty years from the date thereof, with interest at the rate of 6 per centum per annum, payable yearly, and such debentures to be payable at the Bank of Montreal, New Westminster, and to have attached to them coupons for the payment of interest.

3rd. That for the purpose of paying the sum of \$13,900, being the amount charged against the said lands so to be benefited as aforesaid, other than lands and roads belonging to the Municipality, and to cover interest thereon for 20 years at the rate of 6 per centum per annum, the following special rates, over and above all other rates, shall be assessed and levied (in the same manner and at the same time as taxes are levied) upon the undermentioned lots, and parts of lots, and the amount of said special rates, and interest assessed as aforesaid, against each lot, or part of lot, respectively, shall be divided into 20 equal parts, and one such part shall be assessed and levied as aforesaid in each year for 20 years after the final passing of this by-law during which the said debentures have to run.
